

'Stylish, budding business skills and looking good'

Fun and learning for all at

West Kingsdown C Of E Primary School

Our school is continuing to develop as a centre of educational excellence in the area offering an inclusive curriculum based on Christian and British values.

Style On is a new initiative set up to promote creativity and higher order thinking skills. As a school we consider this opportunity will give the group an opportunity to further develop communication skills, build confidence and foster a life-long love of learning.

More broadly, the programme encourages children to share ideas, think independently and allows them to see their ideas and the skills they have learned put into practice. Learning practical hands on skills that can be applied outside the classroom also goes a great way to embedding a desire to learn and drive children to be the best that they can be.

Its official West Kingsdown C of E Primary School has STYLE!

Dream On similarly has been introduced to enrich our curriculum and learning opportunities for all. Its purpose is to introduce business skills and enterprising projects.

Good enterprising teaching and learning should:

- provide opportunities for learners to think and act in enterprising ways
- provide a clear focus on core and employability skills, and the ability to transfer these to different contexts.
- promote positive attitudes and confidence.
- provide opportunities for learners to develop skills such as problem solving, decision making and evaluating risks.
- provide entrepreneurial experiences.

The contribution enterprise in education makes to the personal growth of children and young people can enhance their chances and choices. It can help them to become successful learners, more confident, responsible individuals and effective communicators.

Our children have embraced the challenge of business opportunities and could rival Alan Sugar one day!

Looking good! The launch of our new room 'The Goldmine' back in September has proved an amazing success. It is a warm and inviting learning space which is used regularly throughout every day. Children look forward to the chance to work in there and it has opened up opportunities for us to offer new enrichment activities. Here are some comments from the children:

"It is bright and colourful and I can meet with my friends in there." Chloe Yr2

"The activities are really fun." Teddy Yr2

"I get to improve my handwriting." Alfie Year 3

"You can do different types of learning which help you with your choices in the future. Mary Yr6

Take a look at our photos. I am sure you will agree we are 'Looking Good'

FUN and Learning for all . Recently we have been commended for our inclusive practice by members of the Kent Specialist Teaching team and Kent Specialist Behaviour team .In addition, a visiting improvement advisor for Kent has 'signposted' another school to come and see our good practice. Our Creative Curriculum continues to evolve with cross curricular learning and key days such as 'Everybody's building' and 'Super Scientists'. Through a Creative Curriculum, we endeavour to foster in children a range of transferable skills which they can apply to all learning. It is our intention to nurture our children as lifelong lovers of learning. Our Christian values of Trust, Love, Courage and Respect run like a thread through all aspects of teaching and learning .We also uphold and promote the British values of democracy, liberty, tolerance and respect .

If you would like to find out more about our school or have a guided tour with the prospect of your child/children attending here please contact the school office for an appointment.
